

SLITTER REWINDER
COMPACT DUPLEX

Slitter Rewinder

Compact Duplex

Machine designed to slit and rewind plastic film, label and paper. **Compact design machine and easy to operate.**

This machine operates with: cellophane, PET, PE, PVC, BOPP, CPP, BOPA, PP, laminated, label and paper.

PROCESS

- Shaftless Unwinder for 3" core.
- Web guide system.
- Razor slitting system.
- 3" core differential friction shafts for rewinding.
- Low inertia and low friction non-slip rollers.
- F-type holder for easy unloading.

TECHNICAL SPECIFICATIONS

- Unwind diameter: 1,000 mm (39").
- Standard widths: 1,000 mm (39") - 1,300 mm (51") - 1,600 mm (62").
- Rewind diameter: 600 mm (23").
- Minimum slitting width: 38 mm (1.5").
- Speed: 500 m/min (1,640 ft/min) or 750 m/min (2,460 ft/min).

OPTIONALS

- Unwinder roll lifting table loading system (patented system).
- Shear slitting system.
- Trim extractor.
- Antistatic bars.
- Manual or semi-automatic core positioning laser system.
- 6 " core unwinder adapter.
- Differential rings with different diameters and widths.
- Remote connection for fast troubleshooting.

SERVICES

- After-sales service.
- Technical support.
- Spare parts sales.
